DETAILED ACTION

Allowable Subject Matter

1. Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest wherein, when a request for transmission for transmitting data packets to the right direction is generated by the right terminal equipment, each intermediate equipment writes a request for transmission in a token packet of a packet trailer on the left direction; and when a request for transmission for transmitting data packets to the left direction is generated by the left terminal equipment; each intermediate equipment writes a request for transmission in a token packet of a packet trailer on the right direction line; and wherein, when the request for transmission for transmitting data packets to the right direction is generated, the right terminal equipment prepares a packet trailer having data packet storage area to ensure a reservation area for each intermediate equipment, based on the request for transmission of the intermediate equipment, which is written in the token packet of the packet trailer prepared by the right terminal equipment, and when the request for transmission for transmitting data packets to the left direction is generated, the left terminal equipment prepares a packet trailer having data packet storage area to ensure a reservation area for each intermediate equipment, based on the request for transmission of the intermediate equipment, which is written in the token packet of the packet trailer prepared by the left terminal equipment; and wherein each intermediate equipment stores the data packet in the reservation area of the packet trailer and transmits the data packet to a destination node, as specified in independent claim 1.

The prior art does not teach or fairly suggest means for preparing packet trailers each having a storage area to store token packets and data packets and for transmitting the packet trailers on the two-way transmission line toward another terminal equipment; means for storing transmission rights in token packets of the prepared packet trailers, in which the transmission rights are applied to intermediate equipment, based on requests for transmission of the intermediate equipment written in the packet trailers transmitted from the other terminal equipment, and for transmitting the prepared packet trailers including the token packets toward the other terminal equipment; means for writing requests for transmission in token packets of the packet trailers transmitted by the other terminal equipment; and means for storing the transmission data in packet trailers in accordance with the transmission rights of the token packets including the requests for transmission written in the packet trailers prepared by the terminal equipment, and for transmitting the packet trailers prepared by the terminal equipment toward the other terminal equipment, as specified in independent claim 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
